## SCHOOL AUTHORITY RESULTS SUMMARY

The Alberta Education's School Authority Results Summary for Planning and Reporting was presented to the CSCE Trustees. It highlights areas of quality assurance that show improvement, consistent results or a decline in results. Principals will work with the results specific to their school community to contextualise the results, analyse them and identify strategies to maintain or improve the overall results. The overall analysis will be included in the Annual Education Report, which will be approved by the Board at its November meeting. It will then be available on the CSCE website.
